

Care Home and GP-based Pharmacists

As the recommended provider of the LMC Buying Groups Federation, primary care is what we understand best. In support of the NHS Five Year Forward View we have embraced the shared care environment being created with a clutch of new products to protect federations, Multispeciality Community Providers, Primary Care Homes and *specifically pharmacists working in primary care and care homes.*

Using the NHS job descriptions of clinical pharmacist and senior clinical pharmacist, we have developed indemnity products that cater for the increased exposure primary care pharmacists face, compared to their community pharmacist colleagues, in terms of telephone triage, differential and un-differential diagnosis and medicine management, as well as offering a £10m limit of indemnity to cover the potential for higher claim settlements in this sector. And unlike certain competitors in the market, our cover also extends to protect the principal i.e. the practice or care home, in the event of a claim.

Similarly, with the imminent threat of pharmacist Revalidation we are poised to offer insurance protection in the event of failure necessitating time off work. The cover will be offered either on a stand-alone basis or included within a business overheads policy.

Whilst Revalidation failure might not be likely, until the new regime is implemented, it is difficult to assess and the peace of mind offered by this cover is likely to appeal to many.

Feel free to contact us for a no-obligation discussion on any of your insurance and indemnity issues. We are keen to hear your views on the new direction primary care pharmacists are taking.

Background

MIAB was established in 2002 with the ambition of becoming the UK's most trusted medical insurance broker. 15 years on having largely achieved this aim, we are intent on maintaining our pre-eminent position in the market place.

As the leading provider of Locum and Surgery Insurance to over 4,500 practices, in recent years, we have diversified into dental, veterinary, and optical markets, and most recently pharmacy.

Our range too has expanded to include Indemnity, Business Overheads and Legal Expenses Insurance as well as a range of personal (Life, Critical Illness, Income Protection and Private Medical Insurance) products.

Our website contains many testimonials of which we are proud of. Here's one example you might appreciate:

“ It had been very difficult to obtain indemnity cover for my activities at a satisfactory level until I was able to arrange my insurance with MIAB.

MIAB offer comprehensive cover encompassing all of my roles within a single policy, at a competitive price, without undue restrictions and overly onerous paperwork to complete. I am delighted that a discount is available to PCPA full members and pleased to recommend MIAB to general practice colleagues. ”

Dr Graham Stretch, Senior Pharmacist
Ealing GP Federation & PCPA Care Home Group Chair
RPS Clinical Pharmacist of the Year 2016
